

**The Journey to define HS2's Rolling Stock requirements
Giles Pettit; Technical Director—High Speed Rail
SNC– Lavalin Rail & Transit**

Tuesday 14th. November 2017, 18:00

Derby Conference Centre - London Rd, Derby DE24 8UX

HS2 will be the largest construction project in Europe and will connect eight of the ten largest cities in the UK. When built, the iconic elements will be its stations and trains.

Find out how the technical specifications for the HS2 rolling stock have been arrived at and how key technical decisions have been made.

www.dres.org.uk

We will be serving Tea and Coffe from 17:30
