AB "LTG Cargo" is a leading provider of rail freight services in the Baltic States, operating a large fleet of 208 locomotives and 6,873 wagons. The company is committed to providing its customers with safe, reliable, and efficient transportation solutions. They are currently in the process of expanding their fleet of locomotives and wagons and are seeking to identify new and reliable suppliers in Europe. The company is particularly interested in sourcing the following products:

## Potential suppliers must:

- have a proven track record of supplying high-quality products and services to the railway industry;
- be able to meet LTG Cargo's strict quality and safety standards;
- be able to deliver products and services on time and within budget;
- be willing to work closely with LTG Cargo to develop and implement new solutions.
