# OUR STORY

**Under the patronage of**

His Excellency Eng. Saleh Al-Jasser,  
Minister of Transport and Logistics Services,  
Chairman of the Board of Directors Saudi Arabia Railways

Saudi Rail 2024 arrives at a time of unprecedented growth and innovation. With groundbreaking projects across the Kingdom, there has never been a more important time for the global rail industry to come together and discuss the long-term strategic vision of the Saudi transport infrastructure stakeholders.

With smart sustainable transport a key pillar of the Kingdom's 2030 vision, Saudi Rail 2024 will drive initiative to reflect the National Transformation Program and the National Industrial Development and Logistics Program.

Saudi Rail is the region's leading event designed to connect railway operators, showcase the latest findings of the railway and transportation industry, and focus on driving cooperation between international transportation providers and local companies. The event will encourage international companies to further expand their capabilities within the Kingdom, to contribute to the development and growth within the local transport sector. It also aims to elaborate modern national programs to develop this industry.

The two-day conference and exhibition will be the landmark gathering of Saudi transport infrastructure stakeholders and global solutions providers who will come together to meet, learn, share best practice, explore the very latest solutions for a next generation transportation system and review the technologies and partnerships needed to deliver the expansive goals to pioneer the future of transportation in Saudi Arabia.

If you provide products, solutions or expert advice in any of these areas then don't miss the opportunity to get involved. We look forward to working with you and welcoming you to Riyadh for Saudi Rail 2024.

# MENA RAIL PROJECTS MARKET

source: MEED Projects

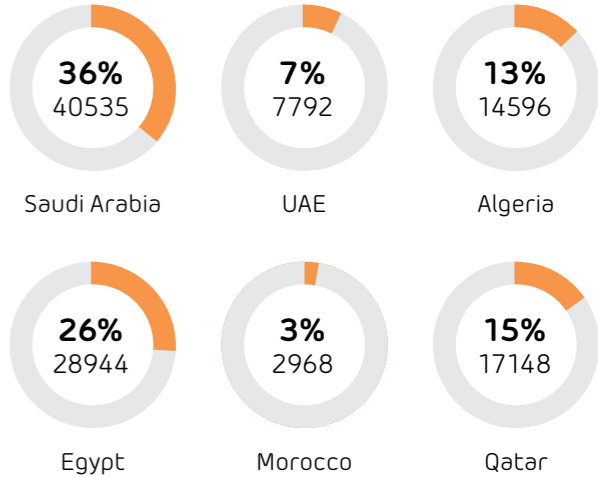

## HISTORICAL CONTRACT AWARDS PERFORMANCE

Major rail and metro contracts have only been awarded in 6 MENA states over the past 13 years, the largest of which is Saudi Arabia followed by Egypt. In Bahrain, Oman and Kuwait there are no operational lines of any kind.

Mena rail contract awards by country 2010–2022 (\$m)

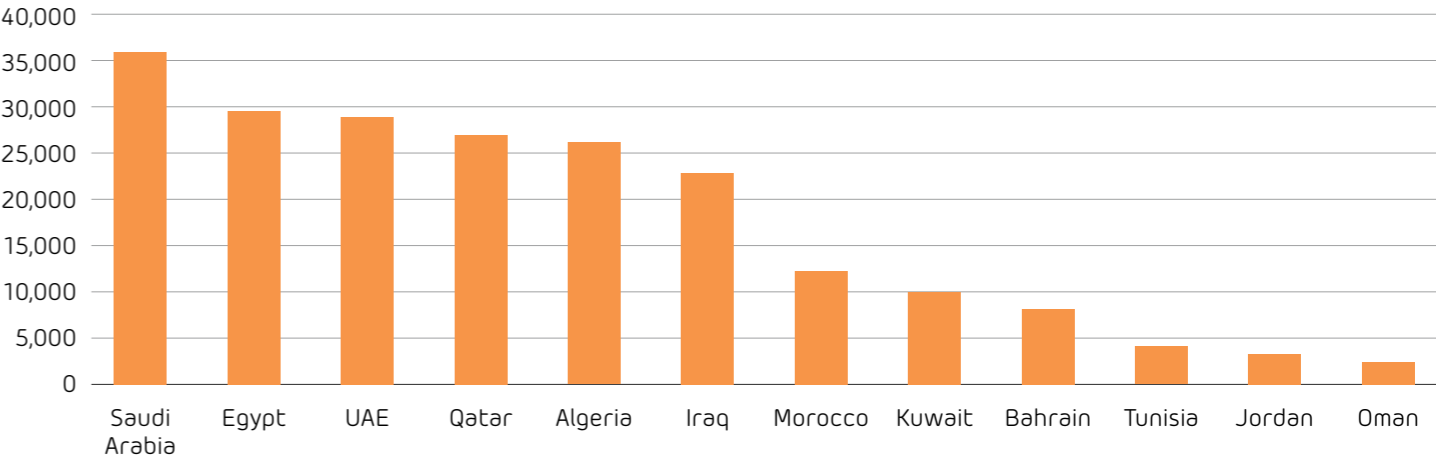

Share of railway contract awards (\$m, %)

## PLANNED AND UNAWARDED (FUTURE) CONTRACTS

The pipeline of future rail and metro projects is more diverse with Iraq, Kuwait, Bahrain and Oman all planning projects either for the first time or the first time in decades. However, the largest markets historically will continue to dominate going forward too.

Breakdown of planned and un-awarded rail and metro projects by country (\$m)
